KADRY - STAFF

Nazwa wskaźnika

Academic Staff (FTE)

Sposób obliczania przez PŚ

FTE – pełny etat dla pracownika będącego nauczycielem akademickim. W tym miejscu liczymy zarówno pracowników na etatach naukowo-dydaktycznych, badawczych oraz dydaktycznych. Oznacza to, że zatrudnienie w innym wymiarze czasu pracy jest przeliczane na pełen etaty.

Definicja THE

- This should include permanent staff and staff employed on a long-term contract basis
- Teaching-only staff and staff whose contract encompasses both teaching and research need to be categorised here
- FTE - all data regarding staff numbers should therefore be reported as full-time equivalents (FTE). 1.0 FTE may be thought of as one person working full time for a year, while an FTE of 0.5 means half of a full work or study load. The FTE for staff member could be calculated as the total number of hours worked during the year, by the number of working hours of a full time person.
